

## BE EXTRAORDINARY AND COMPELLING

My name is Michael Santos, and I am the founder of Prison Professors, a nonprofit organization. God blessed me in many ways while I served 26 years in federal prison. I learned that the best way to prepare for success is to begin building a clear record that shows responsibility, accountability, effort, and a commitment to personal growth.

Our nonprofit offers many self-directed programs. They are all free. Anyone can enroll in our courses. There is no waiting list, and the program will last as long as you want to participate. Your family can register you if they visit **PrisonProfessors.org**. If you do not have a family member outside to help you, then our team will help. Connect with us by sending an email invite:

- » **Interns@PrisonProfessors.org**
- » If you do not have access to email, send us a letter:  
Prison Professors / P.O. Box 50996 / Irvine, CA 92619

Our team will order books and Amazon will send them directly to you. When you participate, you begin creating a record, or assets to help you self-advocate. Your work will show why you're extraordinary and compelling. Use this program to shape your future, just as I did.

I expect to make a presentation in your prison at some point during the first half of 2026. You do not need to wait. Your family may register you today on [PrisonProfessors.org](http://PrisonProfessors.org). Or connect with us and we'll order your books.

Begin building your record now. We advocate to open more opportunities for people to earn freedom through merit. We cannot succeed without showing that people who enroll in the self-directed programs that Prison Professors offers are more likely to prepare for success upon release. Together, we can work toward a system that recognizes and rewards the pursuit of excellence. Show that you're preparing for success.

Respectfully,

*Michael Santos*

Founder, Prison Professors Charitable
